NAME

Tatishchevo ICBM Complex, Probable Launch Site 93I

COUNTRY

USSR

GEO COORDINATES

52-10N 045-12E

WAC

0166

25X1

25X1

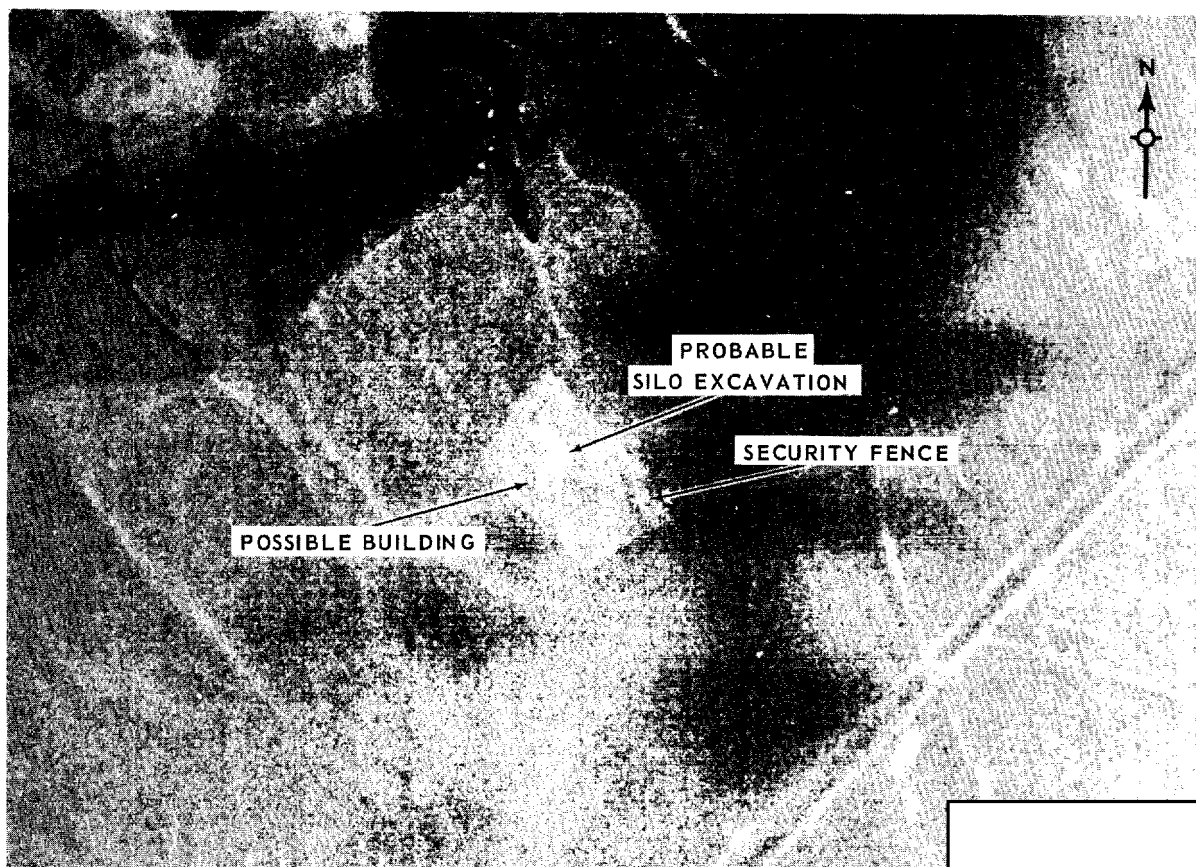

Location: Approximately 33.5 nm NNW of the complex support facility

Type: IIID

Stage of Construction: Early

25X1

The probable launch site is situated in open, cultivated terrain between a bend of the Medveditsa River and the Petrovsk-Atkarsk primary road. The site consists of a fenced area containing a probable silo excavation and a possible building. Access to the site is by an unimproved road from the Petrovsk-Atkarsk road, which joins the complex main road to the S.
